Project Description	Decommission and demolition of a 0.5 million gallon riveted steel standpipe, 53 ft. in diameter and 94 ft. to overflow, located on Village Street, Marblehead, MA. Work includes complete dismantling & disposal of the metal components of the structure, including the floor, shell, and steel supporting fabrications, guy wires, concrete base collar and all accessories along with miscellaneous appurtenant work. The work will also include decommission and abandonment of corresponding non-essential water mains and drain structures. All materials shall be removed from the site and properly disposed of by the Contractor.
Special Requirements	The existing standpipe is located next to a newly constructed municipal communication tower. It will be the responsibility of the Contractor to ensure the dismantling and removal of the standpipe will be completed without interruption to the communications tower and appurtenances.
